

Healings

Saliva Glands Working

“Peace be with you Brendan and to your family,
I just wanted to thank you for visiting St Katherine's church. we were very blessed to have you with us over this past week.
I also wish to thank you for praying for my saliva glands to be healed for they were/are now completely healed. Last night I have complete rest and no longer have to drink a case of water a week.”
Jackie Weiner Enterprise, OR

Knee Pain Gone

“My husband and I attended your mission in Pueblo West, and have never felt the Holy Spirit moving as much as it did during that mission. My husband had suffered for years with knee pain and none of the doctors could get to the source of pain, but after your prayers, he hasn't had any other pain in his knees. Thank the Lord.
In Christ
Sharon & Kevin Carlson
St Paul's, Pueblo West, CO

Back Healed

Jeff came into the meeting, wincing from pain. His right shoulder was much higher than the left. For him to sit or stand put him into excruciating pain. As the meeting ended I saw him hobbling out the door. I could not let this brother leave without trying to do something for him. I ran after him, crying out, “Brother wait. Wait. Can I pray with you?” He slowly turned and asked for prayer. This brother was in extremely good shape, but he went on to tell me how had majorly hurt his back and had been like this for years. What is admirable is that Jeff continued to work as a plumber, suffering all the while.

It was obvious to me that Jeff had left because it was getting late and he needed to get to bed. I said, “Brother Jeff, is Jesus your Lord and Savior?” to which he replied “yes”. I went on, “Brother Jeff, do you believe Jesus can heal you right now, without me praying a long prayer?” to which Jeff replied, “Of course!” Rejoicing, I said, “Now that it faith!” I then laid my hands on him and spoke a short prayer of command, “Jeff, in Jesus name I say ‘Be healed!’ Stand! Be free of pain! Be healed!” Jeff stood with ease. The pain was gone. His back was limber. He was touching the floor and bending backwards. Jeff response – “Praise you, Jesus!”

Range of Motion Restored

Karen is a school teacher. Unfortunately, one day a child came running up, jumped up and grabbed her arm as he came down. This motion tore her shoulder leaving her in constant pain. Karen did have surgery a few weeks before the Mission. The surgery left her with a limited motion allowing her to only raise her arm half of the way.

On the first night I prayed a simple prayer of command that all sickness, disease and infirmities would be healed. I always encourage people to step out in faith and do something that they could not do before.

On the last night of the Mission, Karen got up to give testimony to the healing power of Jesus Christ. Karen demonstrated that her arm had full range of motion and the pain was gone. She also shared that she went to her physical therapist who was total amazed with what had happened.

Tinnitus Silenced & Pain Gone

Over 10 people were healed of tinnitus. The ringing in their ears has totally stopped. Others reported that when I took authority over the Spirit of Pain, commanding it to leave now and go to Christ Crucified never to return again, their pain immediately ceased.

Hand Opened

At the Globe, AZ Women's Retreat I was approached by a woman who several months earlier had fallen and hurt her hand. Since the time of injury she was only able to close her hand half way. When she approached me I was on my way up onto the stage to lead worship. I told her, "I don't have much time, but do you believe that Jesus can heal you right now without us saying some long prayer?" She looked at me with great conviction and said, "YES!" There was only one thing I had time to say, "Father in Jesus' name heal this hand right now. Be healed, hand, in Jesus name." I then told her to move her hand in a way that she couldn't move it before. Her hand was instantly, totally restored.

Double Vision Cured

At the same Women's Retreat a woman asked me to pray for the healing of her sight. She was afflicted with double vision. As we prayed I sensed that the problem was not physical but demonic in origin. It was from the Demon of Confusion. With that I rebuked the Demon of Confusion and her sight returned to normal. Blessed be His Name!

Teenage Girl Set Free

At a recent Mission, during prayer for deliverance, a 15 year girl began to manifest demonic infestations. The mother was present and asked me to do what I could to help. Also, present at the Mission were four deacons. I enlisted these newly ordained deacons to help me with their ordinations graces that this young girl might be set free. She was indeed set free and is undergoing further deliverance!

Barren Woman Conceives

Randy has been married for 8 years and has not been able to conceive. One month ago I was at her family's restaurant. When she saw all our children, Randy shared her desire to conceive and how she and her husband had seen Doctors for help to no avail. As the Father's timing is perfect, her husband came into the restaurant right after I had made the offer to invite them to our house for prayer. Since both where there the time was "now". I offered to pray on the spot and they accepted. Right there, at the cash register of her family's business, I spoke a blessing of opening Randy's womb to bring forth life.

I just received word that Randy and her husband have conceived a month ago.

May the Father of all be praised and blessed forever!

Unexpected Healing

Dear Brendan Case,

First, I want to thank you for coming to my parish for the mission. My husband, Bill, and I heard you after 11:15 Sunday Mass, and he wanted to go to the mission. We didn't go until Thursday night, the Baptism of the Holy Spirit, night. I didn't know what to expect. I met you earlier that day when I came to the church to pick up my reader book. You introduced yourself to my teens, at my request.

I had to wait for my husband to meet me there from work. I saved him a seat. He missed some of the first part.

When you asked us to stand up and close our eyes, a thought suddenly came to mind, "What would it be like to be pain-free?"

This is strange to me because I don't think of myself as being a person suffering with pain but I have been dealing with shoulder pain in my left shoulder for awhile. Recently, my knee hurts when I bend it. It's hard to get in the tub, and I have to be careful when I am sleeping that I don't bend my arms or legs the wrong way. However, it doesn't bother me all the time. I figured it was something that came with age and I was hoping it wouldn't keep getting worse.

After the thought, and throughout the evening, I felt my muscles moving and twitching a bit.

When you said, "Raise your hands!"

I thought, "Yikes!" I did so anyway, and I didn't want to bring my arms down!

When you said, "Fall on your knees on the floor."

I nervously knelt down and had no discomfort. In fact I could kneel for awhile with no problem!

We had to go to the Vigil that night but we came back after Mass. I am still moving my arm and bending my knee with amazement and appreciation. I am pain free! I posted it on Facebook and I have been telling people about it ever since. I can still feel just a little pressure when either joint is fully extended but I think my muscles are trying to come back to that area again.

Thank you for directing God's Blessing to me.
It's my Christmas Miracle. Bless You, too!

Cheryl M. Condon
God, send us your Spirit!

Street Fight Averted

When I was on Mission in Humboldt County, California a group of ladies took me to lunch in Del Rio. During the conversation I shared with them the power of the name of the Lord Jesus that I had witnessed. One of the ladies offered to give me a ride back to the parish, but I was feeling called to walk and pray, asking God to bring me someone in the community to whom I could minister.

As I stepped out of the Coffee Shop my attention, along with the attention of everyone in the town, was focused on two young men, college age, who were yelling profanities at each other. Their threats included statements to the effect of "I am going to pop your head off!" Needless to say, people who were on the streets were stepping into shops to get out of possible harms way. This is not what I expected, but I did pray to minister to people in the community.

Without hesitation I moved quickly across the street to encounter the first of these disruptors of the peace. As I approached I began to pray out loud, calling on the power of the name of the Lord Jesus to bring peace. By the grace of God, this young man responded positively and after some time he was able to walk away from the situation.

Now for the other man – as the first walked away the vulgarity increased and the anger intensified. As I approached this man I felt driven to run towards him. Thank goodness the run was not that long given that I am out of shape. As I ran I began to call down the power of the name of the Lord. As I approached I began slowing down and with love I said to him, "I have come in the name of the Lord Jesus to bring you peace. Get ready to receive!" The young man looked at me puzzled. As we talked I challenged him to be a defender of woman and that his actions were causing fear to those on the street. The more I talked the more open and docile he became. At this point his wife and friends were surrounding us, moving us from two to seven. Now was the moment! It was the perfect

time to share the Gospel. When I finished, I invited them to repent of their sin and commit their lives to the Lord. I laid my hands on the young man that was earlier so filled with anger and rage. The peace of God descended and he began to cry.

I am not sure where he will take his life, but for a moment Jesus was his Lord!

Airplane Ministry

Whenever I fly I always pray that someone will sit next to me with whom I will be able to speak of Jesus. I am not sure how, but almost always that person willingly becomes the Holy Spirit's "victim" for the duration of the flight.

Debbie, was such a girl! Before the flight was off the ground Debbie and I had discussed why we were flying to Phoenix from San Francisco. Debbie was on her way to an alternative medicine convention. She was the owner of a holistic health spa in the Calistoga region and a licensed Physician's Assistant. This was my in! I shared with Debbie that my wife and I were involved in the exciting venture of a holistic approach to women's reproductive issues. This peaked her interest. She asked me to share more with her. I then went on to share the basics of the *Creighton Method* (Natural Family Planning). She was amazed! My next in was when I found out that she is a non-denominational Christian. I asked Debbie if she had ever prayerfully considered or studied the morality of using birth control or if she had ever heard a teaching regarding its transgression of the moral order. Again, Debbie's interest was peaked.

By time we landed, Debbie was convinced of the beauty of NFP and its blessings. We prayed together and God the Father spoke a word of prophecy to hear that released the gift of tears.

I received an email from Debbie. She and her husband are now studying the Creighton Method and considering a way to introduce into this truth into the work of her spa.

Tinnitus

A woman suffered for 15 years with Tinnitus. The Lord Jesus told me to snap my fingers and it would be gone. I told the woman what I was going to do and asked if she believed that the Lord would heal her when I did. She said "yes". When I snapped my fingers the ringing stopped and never returned.

Open Wound

The Lord revealed by Word of Knowledge that there was a person with an open wound that would not heal. I prayed for an immediate healing. The next day a woman shared that she had a wound on her foot that the doctors could not get to heal. The next morning after the Word of Knowledge and prayer the wound was totally closed.

Prostate Cancer Healed

Two years ago I presented a Parish Mission in Pagosa Springs, CO. Lester Rivas attended one of the nights and came forward for prayer as Lester was facing prostate cancer that had spread to his lymph nodes. The prospects were not good, but the Lord is good! After being prayed with, Lester returned to his doctor to find that there was no cancer, what so ever, in his body. It has been two years and Lester is cancer free. Blessed be the name of Jesus! By the way, I learned of Lester's healing through a doctor. This doctor stood in amazement of what god had done.

Woman Leaves Crutches Behind

For 12 years Donna had needed crutches just to stand. With a single prayer uttered in the name of Jesus, Donna dropped her crutches, stood on her own, and then walked out the door without them. There was no long prayer. I remember looking at her and saying, "Do you believe in the power of the name of Jesus? Do you believe that all we need to say is 'in Jesus name be healed!' and you will be healed?" Donna answered "yes" and God the Father looked at the pierced hands of Jesus and sent the Holy Spirit with healing in his wings for Donna.

I love it when God heals in this way. No show. No long prayer. Just the name of Jesus! Jesus is all we need, Church!

Throat Healed – A Testimony from Dan Anguis

Dan Anguis wrote the following:

"Shorty after I got back from a trip to California (last week of May) to baptize our daughter Scarlett I got really sick for a few days (Fever, aches, etc.) and although I quickly got better, it seemed like ONLY my throat stayed sick.

I was unable to sing AT ALL and it was very frustrating because I am a worship leader. Almost a full MONTH went by and I felt completely fine but my throat seemed to get worse, and to top it all off my tonsils were getting HUGE even affecting the way I talked. I have NEVER had issues with my tonsils - EVER.

I was doing everything I could - gargling w/ saltwater, not talking very much, drinking tea with honey, etc. but nothing seemed to help. I am a full time Pro-Life Minister with LifeGaurd in Durango, CO and I do not have much \$, and I do not have insurance, so this was very frightening to me - especially since we just had a new baby!

I have known Brendan for a while and I was looking forward to having him pray over me for a miracle! I left Durango to go to Brendan's healing night in Pagosa Springs (1 hr away) and on the way over I was trying to sing and NOTHING was working. I sounded horrible, it was painful, and I was just getting more and more angry and sad. I LOVE leading worship so this was very heartbreaking for me.

*When I arrived at the healing night Brendan invited me up to come and sing a song (He knows I have a gift) - I then told him that I was there for healing because I have been unable to sing for quite some time! He then began to pray over me and invited others to come up and join him. The priest who was present even gave me the Anointing of the Sick. After everyone prayed over me I was very thirsty! Brendan then asked me to borrow one of the worship leader's guitars and sing one of the songs that I have written. I was **very** nervous because I wasn't sure if the prayers of healing worked or not! But I tried anyways and for the first time in **WEEKS** I was able to sing!!! I ended up leading worship **THAT** night for over an hour while Brendan was praying over people.*

*I have **never** experienced physical healing before, and in all honesty I wasn't even sure if it would "work". But God is so loving and merciful and I thank Him so much for using his servant Brendan. Praise God!*

It was incredible.”

Lame Walking

A man who was not able to walk without assistance, stood and walked when I spoke a commanding word of faith. The church erupted into praise! From that point healings were breaking out all over the church.

Deaf Ear Opened

The Lord Jesus opened the ear of a young man who was 26 years old and deaf from birth. He reported that the best thing was to hear himself praise and worshipping God.

23 year old Girl healed – College Scholarship Restored

A 23 year old girl came forward for prayer to be healed of an injury she sustained while playing volleyball on her college's team. The injury was so great that she was constantly on pain medication and she could not bend her knee. When she was prayed over she rested in the Spirit. The catchers moved on thinking that since she was young she could get up on her own. Pinned to the floor, not able to get up on her own, the Lord Jesus called her to faith. Her only way up was to trust that she had been healed, so up she went. Her next step of faith was to discontinue the pain medication, which she did. There was no pain. Her knee was bending with complete motion and the volleyball scholarship she was about to lose because of the injury was restored.
BLESSED BE HIS NAME!

32 Years Deaf in Right Ear – HEARING!

A woman came for prayer for her grand son. As I placed my hand on her forehead, to the floor she went. As she lay there her right ear popped. 32 years before her right ear was injured and she was left deaf in that ear. As she lay in the arms of the Lord, the ear popped, and she could hear the

buzzing of the ceiling lamps. Her right ear was totally healed. My response, "Jesus, thank you! But could you not have been a little more poetic and let her hear the laughter of a child or the singing of the birds? Jesus, a buzzing light bulb?" Her response, "That was the most beautiful buzz I have ever heard!"
Hallelujah!!!!!!

Mission's Effect on Couples

The Parish Mission Weeks start on Friday night with a Couple's Dinner. Over the years I have heard from so many couples of the difference this Dinner made in their marriage. One couple, who are national leaders for the Marriage Encounter Movement, said that the Dinner was an Encounter Weekend in two hours.

At a recent Mission, on the final night, a couple shared that they had been married for 40 some years but had never married in the Church. He had reasoned that the Justice of the Peace was good enough, though she had prayed for their marriage to be validated in the Church. They stated that because of the Couple's Dinner they had made a decision to be married in the Church.

At another Mission, a young man approached me for a meeting. He and his wife had attended the Couple's Dinner and the Holy Spirit was convicting him of sin and inviting him to a new life. As we prayed he began to sob and express his repentance for betraying his wife. She, rightfully so, had left him. It was an act of mercy from the Lord that they had come to the Dinner. I told him what he needed was not his wife. With hope I proclaimed that he needed to go to confession, give his life to Christ, and be filled afresh with the Holy Spirit. When our meeting was over it was 1:00am. At that point I took him to the rectory, we awoke Father, and the young man made a good confession. After this I lead him in a prayer to give his life to Christ and we prayed for the Baptism of the Holy Spirit. The Holy Spirit immediately fell on this boy and he began to pray in tongues. You should have seen the joy and peace that filled his soul. Every night he returned to the Mission. On the last night of the Mission his wife attended the Evening Adoration with him. She came forward and was Baptized in the Holy Spirit. She also received the gift of tongues and joy filled her heart. After receiving their permission I then lead them through a renewal of their wedding vows. I am happy to report that they are now dating and going to counseling.

People Released from Demons

One of the recent displays of the power of God during the Mission Weeks has been people being set free of demonic oppression; in two cases there was even a need for the persons to consult an exorcist.

Some of the deliverances have occurred in the middle of my preaching. I will get a sense that a certain demon is in the room. Without the people knowing of what I am doing, I will turn toward the Blessed Sacrament and under my breath I will rebuke the demons that the Holy Spirit is showing me. Sometimes

people will stand up and vomit right there in the church immediately after I rebuke and bind the demon. In other cases people have stood up and began to curse and become violent. (*This makes you want to attend one of the Mission Weeks, doesn't it?*) At other times the demons manifest during the time of laying on of hands.

In most cases there is howling, convulsions of the oppressed bodies and contortions of the facial muscles. One woman slithered on her back like a snake between the people. It is a battle for them just to confess that "Jesus Christ has come in the flesh". When I asked the Holy Spirit why this confession was so important, I was instructed that Jesus' incarnation gave him his blood with which to redeem and save us.

In all cases Jesus shows himself to be victorious with people reporting to me that they are like new. Many of these people have sought out counseling for years with little progress, but then Jesus steps into their life as the "vanquisher of hell" and sets them free.

Young Girl Healed

Theresa wrote the following:

"My daughter Melanie, 18, had pain in her knee for six months not only while walking but just sitting there. The doctors tried to find out what was wrong, they both seen swelling and an indention. Although through many, many tests and injections they could not figure it out. My next step was to travel six hours away to a doctor Melanie had when she was eleven years old and had RSD (a pain disorder). These doctors didn't think it was RSD because it was not spreading like the last time. When she had RSD it was so bad she was bedridden, we went to several doctors and finally through prayer we found one in California who treated this disorder properly and after five months of an epidural pump that she carried around with her, she was pain-free. She played sports, and lived a normal life.

She didn't have pain anywhere for six years until the knee started to hurt.

I was going to call the doctor in California right after the appointment I had with the specialist about her Bone Scan. If nothing showed up in the scan, then I would make an appointment with the doctor in California to see if he thought she might have RSD again. Before this could happen, Brendan Case was doing a mission at our church. I told Melanie that she should have Brendan pray over her for her knee. Brendan prayed for her during both of the nights that Melanie could attend. It was two days after that when God spoke to me and asked me to tell Melanie to pray the Blessed Margaret Novena to FINISH her healing. On the second day Melanie woke up with no Pain for the first time in six months, and when she came home from school and told me, we both noticed that the indention and swelling was gone. God healed her knee!!

Before I conceived Melanie, I was told because of some medical problems that I might not be able to have anymore children. When I talked to a Sister at our church, she told me that I should pray the Blessed Margaret Novena for me to be

able to conceive if it is God's Will. I conceived Melanie three months after praying a continuous Blessed Margaret Novena. The Sister inspired me to name her Melanie Margaret. This is why God asked me to ask her to pray the novena to FINISH her healing. I knew when Melanie fell after Brendan prayed for her that she was going to receive a healing!”

Man's Skin Healed

Shelly wrote -

“I'm from Holy Spirit Parish where you visited in January and brought with you a good dose of the Holy Spirit! I never got to tell you my story from the mission. For a little background, my husband is not Catholic, but I pray for him and St. Monica inspires me. The first time you prayed over me at the mission I was so excited to hear what the Holy Spirit might speak to you about my life, but instead you spoke about my husband. It was a little anticlimactic at the time (I was envisioning the Spirit giving me an awesome commission), you asked if my husband suffered from any skin problems. He did, severe eczema on his hands/fingers especially, and sometimes his sides. You prayed for a cure to the root of whatever was causing that eczema. We have been married for 12 years and he has tried about a dozen creams and even prescriptions but nothing has helped completely. I self-centeredly felt a bit like my spiritual balloon had been deflated, having not received the wonderful revelation I was hoping for. A few days later I saw him examining his fingers very closely. Although his eczema would wax and wane it was always present on his wedding ring finger and never completely went away. I asked him how his eczema was doing and he replied that it was totally gone! Praise God!!! Suddenly it came back to me what you had prayed over me and I told him that you had prayed for his cure. He was a bit taken aback. He is generally skeptical of these types of things and mentioned that it could just be coincidence but I could tell his heart wasn't behind the coincidence theory and that he was a bit amazed. I believe that this cure (still no eczema 6 months later, glory be to God) has been one of many events gradually bringing his heart closer to Christ. Thank you for answering God's call and bringing the baptism of the Holy Spirit around the country! This experience has also humbled me, and next time someone prays over me I will be hoping that the Spirit speaks to my husband (NOT ME) with something that will bring him closer to Jesus and closer to full communion with God's one true, holy and apostolic church!

God bless you, God bless your beautiful wife Andrea for sharing you with our parish and God bless all 5 of your children!!!”

Knees Healed

Stana Grant

I wanted to let you know of the healing I received when Brendan was at St Paul the Apostle Parish in Pueblo West CO recently.

The first evening of Brendan's parish mission he asked anyone with joint problems to stand and silently tell God what we wanted healed and why. Then Brendan prayed for all of us to receive the healing we had asked God for.

I am 57 yrs old and have had bad knees since I was a kid. The past 10 years they have gotten worse, more pain and stiffness. I have been going down stairs backwards because if I went forwards down my knees would lock up and not straighten for a couple days with extreme pain. I haven't been able to genuflect or kneel at church for about 6 years. I told God I wanted my knees healed so I could kneel and genuflect at church and kneel for bedtime prayers.

Later that evening Brendan asked if any of us had been healed and several of us came forward. I genuflected then kneeled on the floor with the others and we praised God for our healing.

It has been several weeks now and the knees are still doing well. Sometimes I have felt too tired to kneel for bedtime prayer and just climbed into bed. Then my knees started aching. I asked God why they were hurting and he said because I hadn't used them before getting into bed. I quickly got out of bed, knelt for prayer praising the Lord for my blessings. When I got back into bed my knees didn't ache. Praise the Lord. My co-workers noticed that I take the stairs forward like normal and asked how come. I told them the Lord healed my knees. I am able to do so much more, now. Thank you Lord for sending Brendan to our parish. We look forward to your next visit, Brendan
